ABOUT ME

Creative UI/UX Designer and Flutter Developer with a B.Sc. in Computer Science & Engineering. Skilled in building intuitive, responsive cross-platform mobile applications using Flutter, integrating backend REST APIs/Firebase, and deploying on-device AI/ML models using TensorFlow Lite. Combines strong user-centered design principles with clean Dart code architecture to deliver seamless, high-performance mobile experiences.

WORK EXPERIENCE

Flutter Developer | N. I. Biz Soft (Jan 2025 – Jun 2026 | 1 Year 6 Months)

- App Development: Developed and maintained responsive cross-platform mobile applications for Android and iOS using Flutter & Dart.
- API Integration: Connected front-end interfaces with RESTful APIs and external services to manage asynchronous data flow.
- UI/UX Implementation: Translated complex design wireframes into high-performance, responsive, and reusable widget trees.
- State Management & Maintenance: Utilized modern state management patterns to enhance app stability, optimize performance, and resolve critical bugs.
